

## Alzheimer's A.S.K Answers, Strategies and Knowledge

Memory loss and cognitive disorders like Alzheimer's disease and related dementias can be unsettling and carry a heavy stigma. Complicating matters, Black and Brown community members face a disproportionately higher rate of the disease. This makes it incredibly important to get your questions answered. Is Mom just getting older, or should I be worried? What does Alzheimer's look like in my community? How can I help?

Get answers to these and your specific questions during our Alzheimer's A.S.K. session on December 2. Led by dementia care experts from Banner Alzheimer's Institute and Banner Sun Health Research Institute, you can participate in an open discussion around diversity and disparity in dementia. You won't want to miss this candid Q&A session with Danielle Goldfarb, MD; Naudia Moorley, PsyD; and Daniel Viramontes Apodaca.

Registration is required, Call (602) 230-CARE or [online](#)

### DATE

December 2, Thursday

### TIME

10:00am-11:00am

### LOCATION

VIRTUAL EVENT

### COST

Free

### REGISTER
